Removal.
JOHN A. ROEDER,
MERCHANT TAILOR AND CLOTHIER,
S. E. cor. Jefferson and Clay sts., Louisville, Ky.,

BEGS LEAVE TO INFORM HIS former customers, and the public generally that he has removed his Clothing Store from his old stand, Market street, between First and Second, to his new house on the corner of Clay and Jefferson, where he is prepared to serve his customers with everything in his line. His stock of Clothing is one of the most complete in the city, comprising every article pertaining to GENTLEMEN'S APPAREL, from the most dandified Broadcloth to the cheapest Linsey garment.

Thankful for the patronage heretofore so liberally bestowed upon me, I would beg leave to ask a continuance of the same, assuring my friends that they will not leave my store without being satisfied.

se7 d3m JOHN A. ROEDER.

Competition is the Soul of Trade.

THE TIME FOR DEALERS TO lay in their Fall and Winter stock of Clothing is close at hand, and the aim of every one being to buy in the best and cheapest market, the undersigned deem it a duty due to the trading community and to themselves to draw attention to their

PIONEER CLOTHING ESTABLISHMENT,
(WHOLESALE ONLY),
Northwest corner of Main and Fifth streets.

They have profited by the dull times of the past months in making up and laying in a stock of Clothing suitable for the approaching season, such as cannot be competed with by any other house in their line.

The stock consists of every variety of Garments, from the Shanghai of the man of fashion to the rough Blanket Coat of the digger of the soil, with full suits to match.

All they ask is an investigation of their goods. They are determined to convince the most skeptical that their stock is the stock of the season. A general invitation is hereby tendered to the trade to call and examine.

AT A MEETING OF THE BOARD of Directors, held the 7th of April, 1855, the following resolutions were unanimously adopted:

1. Resolved, That whenever the funds of the Society are sufficient, there shall be erected on the Fair Grounds, a permanent fire-proof building—to be added to from year to year as space may be required—which building shall be an "Agricultural Museum," for the preservation and exhibition of all agricultural and mechanical implements, and such specimens of art as may hereafter become the property of the Society.

2. Resolved, That all agricultural and mechanical implements and works of art, (not in their nature perishable,) to which FIRST premiums shall be hereafter awarded, the actual value of which shall not be greater than the premium awarded, shall become the property of the Society, and shall be preserved by them in the "Agricultural Museum."

3. Resolved, That all articles as aforesaid, to which FIRST premiums may be awarded, which shall exceed in value the premium offered, may be presented to the Society, or deposited in their museum for exhibition—the Society reserving to themselves the privilege of purchasing the same by paying a fair price therefor.

4. Resolved, That all or any of such agricultural or mechanical implements as may be bought by, or become the property of the Association, shall be exhibited for premiums at the annual fairs for the benefit of the Society, and shall continue to be so exhibited until premiums be awarded to other implements of greater merit.

REGULATIONS.

☞ The Exhibition will commence each day at 9 o'clock; by which time, to avoid delays and confusion, all entries should be made. Entries for the first day's exhibition may be made with the Secretary for two days previous to the fair. Entries for the subsequent days will be received at the office of the Secretary on the grounds.

☞ The Judges are requested to report themselves to the President at his office on the day on which they are to act.

☞ Persons desiring to become annual members are requested to have their names so recorded ten days previous to the fair.

☞ All premiums, from five dollars upwards, will be paid in plate—all under that sum in gold coin or medals, at the option of the claimant.

☞ Non-members of the Association will be charged for competing for premiums as follows:

For a premium of $5 or less,	$2 00
For a premium of over $5,	5 00

☞ Members of the Association are not permitted to compete for a premium with an animal or article of which they are not the real owners without payment of the regular charge for entry.

☞ No premiums shall be awarded where but one article or but one animal is exhibited, unless the Judges shall decide that such article or animal is worthy of a premium.

☞ Marks of any kind or other indications of ownership are to be rigidly excluded from all articles competing for premiums.

☞ Sales at auction, for the benefit of those who may desire to dispose of stock, or other articles, in that way, will be made daily in the Amphitheatre during the recess for dinner. Those desiring the services of an auctioneer are requested to give notice at the Secretary's office.

☞ Persons desiring stables, for stock to be exhibited, will be required to pay at the time of engaging the same, one dollar for each, during the week, or 25 cents per day—no charge made for hog and sheep pens. Feed of all kinds will be furnished at the lowest market price.

☞ The stalls underneath the amphitheatre will be rented for one dollar during the week for the purpose of depositing baskets provisions, &c., that may be brought by families to the fair grounds.

☞ Persons renting booths, must in all cases, and under all circumstances refrain from selling intoxicating drinks, under the penalty of having their booths closed and themselves ejected from the grounds.

☞ The Presidents of County or State Associations, or a delegate from each, are invited to attend, report themselves to the Treasurer, and receive tickets of admission.

☞ Members' tickets will be furnished on application to the Treasurer, Thos. Y. Brent, Esq.

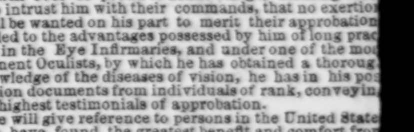
Important Notice.

STAY PROLONGED TO THURSDAY, OC... 25th, and POSITIVELY not one day longer.

In accordance with the request of many persons residing in the country, I have deferred my departure until the above date, and as I am now closing up my business in the United States this will be the last chance to procure my Improved Spectacles.

New Discovery for the Eyes.

SPECTACLES, &C., GROUND O... the exact principle of Special Accuracy, by



SOLOMONS, the celebrated optician, from the improved Spectacle Manufactory and London Optical Establishment, No. 105, Old Bond street, London, established more than a century ago.

G. SOLOMONS, the sole inventor of the improved Spectacles, and various improved Glasses, is now on professional visit to this place, and may be consulted at his office, No. 74 Fourth street, between Main and Market.

He has had the honor of attending the principal towns of the United Kingdom, where he has experienced the most flattering encouragement; and having been earnestly solicited to make a visit for a short time, he has the honor of announcing his arrival from London with a most splendid assortment of his newly invented and improved Spectacles. Such is the superiority of these Glasses, that persons having inflamed or weak eyes may instantly be relieved by using them, and they possess the property of preserving the precious organ of sight to the most advanced period of life, while they enable both the old and the young to pursue the most minute employments for any length of time, both by day and candle-light. As several individuals in the United States have proved their efficacy, he, with confidence, solicits the further favors of the public which he will ever be proud to acknowledge, assuring those who intrust him with their commands, that no exertion shall be wanted on his part to merit their approbation. Added to the advantages possessed by him of long practice in the Eye Infirmaries, and under one of the most eminent Oculists, by which he has obtained a thorough knowledge of the diseases of vision, he has in his possession documents from individuals of rank, conveying the highest testimonials of approbation.

He will give reference to persons in the United States who have found the greatest benefit and comfort from the use of his newly invented and improved Spectacles.

New Discovery for Deafness.

The SOUND CONCENTRATOR is an extraordinary, powerful, newly invented, small instrument, for the cure of extreme cases of deafness, entirely different in make or construction from all others, surpassing everything that has been or probably ever can be produced. They are modeled to the cavity of the ear, and may rest within, without projecting, and being of the same color as the skin are not perceptible. The powers of this valuable invention are so great as to restore defective hearing of long standing to its perfect and natural state, and to enable deaf persons to join in general conversation, to hear most distinctly at a place of worship, at the bar, or any public assembly; the unpleasant sensation of ringing noises in the ear is entirely removed, and the concentration affords to individuals afflicted with this dreadful malady all the assistance that can possibly be desired.

ST. LOUIS, Nov. 14, 1853.

It gives me pleasure to bear testimony to the value of Mr. Solomons' Glasses. I have been under the necessity of using Glasses in reading, especially at night, and I find them far better adapted to my difficulty than any I have tried. CHAS. W. STEVENS, M. D.,
Professor of Anatomy in the St. Louis University.

PITTSBURG, June 3, 1850.

I am using a pair of Mr. Solomons' Glasses, and find them very comfortable. I cheerfully add my name to the number of those recommend them.
JOS. P. GAZZAM, M. D.

NEW YORK, June 4, 1850.

Having made a trial of Mr. Solomons' Spectacles, and examined the principle on which they are constructed, I have no hesitation in pronouncing them superior to any with which I am acquainted, and accordingly can most cheerfully recommend them to those who need artificial aid in improving their vision.
CHAS. A. LEE, M. D.,
Professor of Pathology and Materia Medica, Geneva, Buffalo and Bowdoin College.

LOUISVILLE, Oct. 23, 1854.

Mr. Solomons has furnished me with my first pair of Glasses. They appear to answer the purpose very well, and occasion no uneasiness to the eyes when used. The testimony of other medical gentlemen of experience on the matter is very conclusive and firm of these articles.
JOSH. B. FLINT,
Professor of Glasses, Ky. School of Medicine.

I have made trial, for a short time, of Mr. Solomons' Glasses, and I am much pleased with them; they render vision very distinct, and appear to fatigue the eyes less than the glasses I have heretofore used. Those in need of artificial aid in this respect will do well to call on him.
H. MILLER,
Prof. Obstetrics, University of Louisville.

I have this morning examined Mr. Solomons' Glasses and having, for the last two years, made the diseases of the eyes my study, I have no hesitancy in saying to those who need Glasses that they will find them a superior article, well adapted to all ages.

Given under my hand this 23d day of October, 1854.
L. YATES, M. D., Oculist, Louisville, Ky.

LOUISVILLE, Oct. 28, 1854.

I have examined Mr. Solomons' Glasses, and although I have been using Spectacles for the last six years, I find them superior to any I have used so far.

Given under my hand this ... day of October, 1854.

☞ The great gathering of the Kentucky Democracy takes place at Lexington to-day, for the purpose of interchanging congratulations on the proud, patriotic, and defiant attitude of the good old party North and South in the present trying crisis, and to renew their vows to stand by the Union and the Constitution. A large attendance of able speakers, of our own and of our sister States of Illinois, Indiana, and Ohio, is expected, among whom may be mentioned Judge Douglas, and Senators Bright and Pugh. It will be a political feast where thousands of the sterling Democracy and their patriotic colaborers, the anti-Know-Nothing Whigs, will refresh and strengthen themselves for the important work before them, and vie with each other in fidelity to the Union, the Constitution, and the rights of the States. We heartily wish that every Union-loving Kentuckian could be there to hear, personally, the gallant champions of the Northern Democracy who will speak on the occasion, as well as distinguished men of our own State. The truth will be made manifest that there is now in this country but one great national Union party, and that that is the Democratic party, aided and strengthened by true national men of the old Whig party. Against this Union party, prophetically pointed to by Mr. Clay in his great speech before the Legislature of Kentucky, in 1850, a corrupt, unprincipled, and formidable fusion party has been organized, consisting of Abolitionists, Freesoilers, Know-Nothings, and Maine-Law fanatics. The contest is to come off in 1856, and the forces on both sides are marshaling and arming for the conflict. That conflict is to decide the fate of the Union and the Constitution—of civil and religious liberty in this land. Does not every patriot's heart burn within him when he sees the Democratic flag proudly waving in the breeze, inscribed with the motto of "Union, Liberty, and Fraternity?" A glorious triumph awaits the friends of the Union in 1856. Fanaticism, sectionalism, and political demagoguery and humbuggery will be met and rebuked after a fashion that will serve as a lasting admonition to the factious spirits of the land, who are plotting and combining to innovate upon our free institutions, and to subvert our glorious National Union—the palladium of our liberties. That union can only be perpetuated by recognizing and sacredly respecting the equal rights of the States and the people. This has ever been the care and the policy of the Democracy, and it will continue to be while they deserve that honored name.

All honor to those patriotic men of our former political opponents, the Whigs, who have shown, by repudiating Abolitionism, Know-Nothingism, and all manner of fanaticism and sectionalism, and rising above old party prejudices, have identified themselves, in feeling and action, with those whom they honestly regard as the only purely conservative party of the country. We shall expect to hear glad tidings from Lexington. Our friends there will do up things right—in old fashioned Democratic style, and no mistake. All hail the united National Democracy and their gallant allies, the true blue Clay Union Whigs. The enemies of the Constitution, and of civil and religious liberty, cannot stand in a contest with such a party.

The News.

The Michigan Agricultural Fair is holding at Detroit, and an immense number of people are in attendance.

The President has appointed to the place made vacant by the death of Chief Justice Cranch of the United States Circuit Court for the District of Columbia, Hon. George W. Hopkins, of Virginia.

News from Mexico.

Through the kindness of Mr. J. A. A. Beufield, we are put in possession of the following late news from the City of Mexico:

MEXICO, Sept. 17, 1855.

You will see from the newspapers I send you, that the revolution is concluded by a pronounciamento for the plan of Ayutle, which is that of Alvarez.

Gen. Romulo Diaz de la Vega is the commanding General, we have no President as yet, and shall not have until the revolutionary chiefs unite and select one, which I think will take place about the end of this month; most likely Gen. Alvarez and all the chiefs will meet at Cuernavaca for the election, and then come to Mexico.

The estates of Gen. Santa Anna are embargoed by Gen. La Slave, commander-in-chief of Vera Cruz, and no doubt will be sold for the benefit of the Republic. I think many of Santa Anna's friends will share the same fate.

I have great faith in this change, as all the leaders are to be a fresh set of men, and of private character—by this I mean not soldiers nor priests. The 16th of the present month (day of the Mexican independence), passed off very dull; it was the worst procession I have ever witnessed. There were not more than 50 soldiers and about 100 gentlemen, the rest were little school boys; the illuminations were very good.

We have had a great deal of rain this season sometimes it has rained all day. [An unusual thing in that country.]

From the translation made for us from the Mexican papers, we find ourselves compelled to condense so as to give only the principal news.

On the day when Gen. Carrera left the palace, Gen. Vega received a communication from Mr. D. M. Arroyo, strongly recommending the most liberal course towards all foreigners in Mexico, with the fullest protection to their property and estates.

Mr. Stewart has, at his own expense, completed a line of telegraph between Mexico and Tacubaya.

Gen. Santa Anna's estates in and near Vera Cruz have been placed in the hands of trustees, to prevent his friends and agents from using them. The lands of Encero Taso de Nevas and Boca de Monte have been ordered into the trusteeship of Feliciano Bicarte.

☞ Upon the first page, this morning, we publish a full list of the premiums to be awarded at the fair of the Southern Agricultural and Mechanical Association which commences on Tuesday the 9th inst.

On the fourth page may be found several items of interest from our evening edition of yesterday.

☞ If you are suffering with chills and fever go at once and get a bottle of Burkhardt's Remedy, it will only cost you 50 cents, to be had at most of the Druggists and of the proprietors, No. 417, Market street, between Fourth and Fifth. d6

☞ A trotting match came off a few days ago on the Long Island Union Race Course, between the celebrated trotting horses Tacony and Mac for $1000. Tacony won the race, taking the first heat in 2:32½, and the third heat in 2:33½, while Mac won the second heat in 2:32½.

☞ Miss Kimberley has been engaged to play an engagement at the National Theatre in Cincinnati.

☞ The pump at the corner of Third and Market streets needs the attention of the Pump Inspector.

BRINLEY'S PLOW.—We are informed that at the fair held at Green Castle, Indiana, Brinley's plow took the premium.

CRANBERRIES.—Mr. A. Fonda, No. 95 Fourth street, is in the receipt of a very choice lot of cranberries.

☞ We call attention to the advertisement of Mr. Jas. Gregory, lumber merchant on Jefferson street. He has a large lot of dry pine lumber, laths, &c., which he is selling very low for cash.

YALE COLLEGE.—The present number of students in the collegiate department of Yale College is as follows: Seniors, 95; juniors, 109; freshmen, 153; total, 463.

SALE OF A FURNACE.—The Fortmouth Furndce property, with 1100 acres of land, in Shenandoah county, Va., has been sold to Hugh Galloese, for $13,000.

SENSIBLE.—A man in London recently offered, through the columns of the Times, twenty-five dollars to the author of the best advertisement setting forth the excellences of a new timepiece.

CONVERT TO JUDAISM.—The Rochester Democrat states that an American Protestant lady of that city, a few weeks since, entered the pale of Judaism, and last Sunday she was married, according to the Jewish ritual, to a descendant of Abraham.

COMMITTED.—Edward Morehead was yesterday committed by Judge Johnston, to answer the charge of murder. He is one of the two who aided Walker and Powell in killing Farris last Sunday evening at Emma Gordon's. Emma Gordon, Rose Norman, Jane Haskney, and Cinderella Ryland, all inmates of the house, recognized him; some of them testified to his helping to hold Farris while Walker and Powell were stabbing him.

The Kunkle Troupe.

A very large and enthusiastic audience welcomed the Kunkel Troupe at Mozart Hall last evening.

The Kunkels' were always great favorites with our people, and with the additions made to the company, they will add—if it is possible to add—to their popularity here. We have not the space to speak of their merits repeatedly. This troupe is composed of star performers, and embrace a wide range of imitative talent; hence, in their delineations of the genuine Southern negro character, they are perfectly inimitable. There is a great deal of human nature as well as music in a genuine sable, and the mantle of the prince of "niggers" seems to have fallen upon each and all of the members of the troupe.

Those little prodigies, the WELLS' CHILDREN, are a pleasing feature in the performance, and while we wonder how such youngsters can sing at all, we are delighted with the harmony and pathos of their songs. The programme of each night's performance presents a fine variety. Let all who would cure the dyspepsia, "blue devils" and "a' that," go and hear them to-night.

The Mechanics' Fair--Ninth Night.

On our fourth page will be found a notice of the Fair which was crowded out yesterday and day before.

Last night the hall was again crowded as it has been, and considerable interest manifested in the contributions by those who had not seen them before. The great majority, however, go night after night, because it is *the* fashionable place of resort. If you want to find any one, the Fair is the best place to look. Among the contributions, there are many we should like to notice, but we have room this morning for only one.

The case of Dewitt & Miles is one of the most prominent in the hall, and one which no visitor will pass without observing. It is well filled with harness, bridles, &c.; containing such article as one would expect to find in a saddle and harness factory. If you wish to see specimens of elegant workmanship, look at that case; if you wish to see that which, while it is elegant, is also serviceable, look at that case. Such harness as they exhibit would make any horse neigh with delight to have put on him; such bridles and saddles the richest man in the country might be glad to purchase at any price. If Phæton had put such harness on his horses when he mounted the chariot of the sun, they could not have run away with him. Seriously, though, the harness is of the very best quality; the material is good, the stitching is good, and whatever else goes to make up the harness, is of the best quality. Dewitt & Miles have established for themselves an enviable reputation, and he who buys of them will get his money's worth.

The Portland Argus says the following dialogue occurred between a conductor on the Portland railroad, and a passenger, a few days since.

Passenger.—Well, Mr. Conductor, what is the political news.

Conductor.—Don't know, sir, for I havn't been to church for the last two Sundays.

Quite a large number of delegates from Southern Kentucky, passed up yesterday to Lexington, to attend the glorious meeting of the friends of equal rights, which takes place to-day.

A Kentucky poet says of his sweetheart as follows; she must be one of 'em:

She wore a robe of snowy white,
Such as in Heaven they wear;
Her step was like an angel's, light,
Her beauty far more rare.
Yes, in that clime beyond the skies
The loveliest seraph could not bear
Away from thee, sweet B—, the prize
Of beauty here or there.

"Don't you won't a ra'al prime lot of butter?" asked a pedlar, who had picked it up at fifty different places.

"What sort of butter is that?" asked the merchant.

"The clear quill—made by my wife from a dairy of forty cows—only two churnings."

"What makes it of so many colors?"

"I guess," replied the Yankee, "you never would have asked that question if you had seen my cows, for they are a darned sight speckleder than the butter is."

Yesterday was a beautiful day; seasonable—neither too cold nor too warm; just such as an early October day should be.

"Alice," said little Mary the other day, "let us go to the boy's theatre to-morrow?"

"No," said Alice, "I can't go."

"Why?" persisted Mary, "why can't you?"

"Because," said Alice, "I can't go without having a *contest with mother*, and I don't want to do that!" Remarkable juvenile precocity that.

Great News from Nicaragua!

Col. Kinney Elected Governor of San Juan.

WALKER THE FILLIBUSTER TURNED UP VICTORIOUS.

The news from San Juan is astounding. Col. Kinney has been elected Governor of that locality, has issued an inaugural address and appointed a Cabinet, and Col. Walker has been engaged in a desperate battle, in which he triumphed. A correspondent of the N. Y. Times, writing from San Juan del Norte, on the 15th of September, says of Col. H. L. Kinney:

Since he has been among us he has acquired a wonderful popularity, by conducting himself modestly and preserving perfect order and docorum among his men. I was at the Astor House in New York in May last, and a gentleman at the breakfast table one morning was talking with a friend about the Kinney Expedition. He said that the Nicaragua Transit Company had, at great expense, mounted a 12 pounder on the fort at Castillo Rapids. Another gentleman at table, evidently from the South, looked towards a lady at his side, and observed, in a quiet tone of voice, "Kinney 'll have that gun." Now, that gentleman, whoever he was, had got Kinney's measure correctly. He had probably known him in Texas, and had seen his indomitable perseverance there, and felt that there was no such word as fail in his dictionary.

It was evident before the Colonel had been among us a week that he was the man to take the lead in affairs here. Some opposed him, thinking that as he was at loggerheads with the United States their Greytown claims might suffer, if they indorsed him here. But they soon saw that he was no fillibuster—and then they began to hint darkly to one another their ideas, and then to talk openly in the streets, till, finally, the infection spread to such an extent that a public meeting of the citizens was called, and the Colonel was elected Governor by acclamation.

So far all went well. A few days after the inauguration of Governor Kinney, as soon as the Government was organized, notice was served upon the British and American Consuls. The acting Consul, Mr. Mason (Mr. Fabens, you know, on account of his association with Col. Kinney, was not permitted by the United States to resume his functions here), promptly recognized the new government. I have not seen his letter, but I understand that it was quite satisfactory to the Governor. But the British Consul, after a consultation with a British man-of-war captain, in port, and the late Mayor, Martin, did not see fit to recognize, on the ground that the new organization *interfered with the territorial rights of the King of Mosquito*, and was a violation of the Bulwer-and-Clayton treaty! It is worthy of notice that half the officers in the government are British subjects. After Great Britain had established this place as an independent municipality, and had declared it fully able to manage its own affairs; after, too, the communication was made to Mr. Everett by the British Minister at Washington, in 1853, as described in his speech in the Senate, on the 21st of March of that year, that "the government of Her Britannic Majesty were agreed to almost anything, they were willing to acknowledge this independent government which had been set up in San Juan; they were willing to go there with the United States, and treat with the municipal authorities of San Juan, conceding to them the effective government of the country; they were willing they should continue to govern it, American citizens though they were; they might continue to govern under the name of the Mosquito King, or they might be themselves the exclusive sovereigns of the country"—after such acts and professions, it certainly seems a little unaccountable that John Bull should begin to show his stubbornness, when it defeats what are really his own ends.

The truth is, England sees that great things are to be accomplished down here, and would like to hold on to this coast a little longer. I have no idea, however, that she will interfere to prevent Governor Kinney from colonizing his own lands, but I think she would like much to have it done under the august shadow of His Majesty, the Mosquito King—the faithful ally of Her Majesty, the British Queen.

The Kinney expedition has succeeded. They have built houses, cut roads, planted farms, established a school, a church, and a free library. They have brought out a newspaper, the Central American, a copy of which you will receive by this vessel. This has been done by amateurs, there not being a single practical printer in the party. They are an industrious, sober set of fellows, as a class. The ridiculous stories told by White and Marcoleta in the States about a military invasion, have only served to give the expedition a lift.

Kinney has also commenced the publication of "The Central American" newspaper. The first number contains his inaugural address. He talks of establishing a constitution and laws, of preserving inviolate personal rights enjoyed before the establishment of the "present government," and all that sort of thing. The tone of the annexed paragraph from that document is rich:

Notwithstanding the failure of the last Congress of the United States to make an appropriation remunerating the citizens of San Juan for their losses from the bombardment of the city by Capt. Hollins, there is a cheering prospect that justice will, to some extent, be rendered at its coming session. A measure so important to the business interests of the people, and so urgently demanded by every consideration of justice and humanity, cannot be postponed consistently with the good name of the American government. Every effort of mine, whether in an official or private capacity, shall be exerted to procure from that republic a speedy relief to those who are now so unjustly deprived of the proceeds of their own honorable industry.

WALKER'S BATTLE AT VIRGIN BAY.—An eyewitness of this affair gives the following account of it:

On the morning of the 3d September, about 8 o'clock, news of Walker's approach was received at Virgin bay, and soon after the Democratic army entered the town. First came the "Falange Americans," composed of sixty-five Californians, armed with rifles and revolvers. After these followed the native legion, one hundred and twenty-five men, armed with muskets and bayonets. Among the officers of the former were Col. Walker, Captain Doubleday, Acting Commissary, C. C. Hornsby, late attache to Wheeler's legation, and Dr. Jones, Surgeon. The native troops were commanded by Gen. Chilon, assisted by Gen. Mendez, Col. Luzarago, and Captains Cortago and Chilon, the latter a son of the General.

On their arrival the Calfornians were billetted on different hotels, while the natives occupied the "cabildo," and other vacant houses about the town. The officers of both divisions called to pay their respects to Judge Cushing, agent of the Transit Company.

About 11 o'clock A. M., the cry of "El Enemigo! El Enemigo!" announced the arrival of Gen. Guardiola with five hundred men in three divisions, the first by the Transit road, led by Guardiola; the other two diverging to the right and left with a view of surrounding the town.

The advance of Guardiola was fired upon by a picket guard of twelve men from Walker's native legion. The action soon became general, and I, who was among the spectators, found it prudent to retreat to the room of the Transit Company, to avoid the bullets. We put up a barricade of packages of express freight, and it was very fortunate we did so, no less than twelve hullets passed in a few minutes through the office and Judge Cushing's room.

A confused hubbub of voices was heard on all sides. At one moment, "Viva El Gobierno," then "Viva Castellon!" then "Hurrah for Walker!" At last the government forces were completely defeated, with a loss of from sixty to one hundred. Thirty-four of their bodies were buried by order of Judge Cushing. Of the democratic forces five were wounded and *not one* was killed. Col. Walker was slightly wounded in the neck by a musket ball, and Capt. Doubleday in the side. The entire battle lasted but an hour and a half.

The San Juan del Norte correspondent of the New York Post, writing on the 11th of September, says:

It is reported that Walker has gained great popularity among the people, owing to his kindness to the wounded troops. He is now stationed at San Juan del Sur, where, as well as at other places, his charge of one hundred and fifty dollars upon each innkeeper, does not, I imagine, conduce much to their satisfaction. According to the reports of the passengers, Mr. Priest, American consul, who keeps a public house, refused to pay, but was compelled to yield by the appearance of two soldiers, prohibiting the ingress or departure of guests until the amount was duly forked down. The Transit Company appears to have suffered a little by these exactions, the agent for San Juan del Sur, Mr. Fitzgerald, having been assessed $6,000, for which he placed his entire farm at the disposal of Walker. The Company's muleteer, Carazo, was also taxed $600, besides losing most of his bullocks by the revolutionists.

The passengers, too, in passing over the road from Juan del Sur to Virgin Bay, encountered a number of Walker's troops, who, on their own responsibility, (for it is said Walker disapproved of their conduct,) levied a head tax of a dime apiece, which, after some grumbling, was submitted to. A few of the passengers remained, I am told, to reinforce Walker, who has under him not more than one hundred and fifty soldiers from the States, with the exception of accessions from California. On the other hand the government party, which has the most money, has rallied again, and General Corral at the last accounts was at Rivas, in command of 800 men, all ready to attack Walker's strongholds at Virgin Bay, San Juan del Sur and Realejo. Mr. Scott, the agent of the Transit Company, having doubtless apprehensions of further depredations, has put the lake and river boats of the company in a state of defence, by mounting each of them with four cannon, taken from the munitions of war with which the unfortunate Italian recruits from New York had been previously supplied at Fort Castle.

They say that Walker's acquaintance with Nicaraguan strategy has improved not a little in consequence of his former defeat, which was owing to the backing out of his native allies. It is a peculiarity of the Nicaraguan that the first fire decides the battle. If they find that their side suffers most by it, they at once drop their arms and run, especially if their leader be killed or wounded, even though they may be the superior force in numbers. In the late engagement at Virgin Bay, Walker obviated this difficulty by stationing his Nicaraguans in front, and keeping his reliable Californians behind, so that the former could only retreat against a hotter fire in the rear than they were compelled to march against, the order being to shoot every fugitive. In this way, and by Walker's taking the lead of the native allies himself, they were stimulated to an unwonted bravery and fought like heroes. Walker himself received half a dozen bullets, not one of which did more than graze his person. His hat was perforated in two or three places.

News by the Star of the West.

CALIFORNIA.—The Star of the West arrived at New York at noon on Sunday, bringing $1,500,000 in treasure.

On the passage there were 12 deaths from cholera, among whom are the following from Ohio: A. B. Bowlinger, of Clark county, aged 55 years: Peter Nasser, of Seneca county, aged 28 years.

A riot occurred on the 21st of August at the primary election in the Sixth Ward, San Francisco, in which a number of persons participated, using knives and pistols freely. A small boy was wounded in the arm; James P. Casey received two slight wounds from pistol balls in his left temple, his hand blazed, and two other bullets through the breast of his coat; J. W. Bagley received two shots, one in the left arm and the other in the right breast; Robert Cushing was stabbed twice with a bowie knife, penetrating the lungs, which will probably prove fatal.

Peter B. Manchester, the notorious Cincinnati banker, was arrested in San Francisco on the 18th ult., on a requisition from the Governor of Ohio, but the traveling Executive of California, by his absence from the post of duty, may frustrate the arrest. Manchester has been released on $3,000 bail, and the officer from Ohio is awaiting to convey him to his residence by this steamer.

The election was to come off on the 5th, the day the steamer left. The contest, it was expected, would be a warm one. Both parties had arranged all their forces, and an attempt had been made to resuicitate the defunct Whig party. Those managing the movement are old stagers, and the real Whigs, it is said, look on the movement with distrust. There are three tickets in the field—Whig, Know-Nothing and Democratic.

The shock of an earthquake was felt in San Francisco on the 28th August, which, it was supposed, had extended to other parts of the State.

FROM THE PLAINS.—Major Hallear, who had been sent out with a command to punish the Indians who massacred a party of emigrants last year, had a talk with the Bannie tribe of Snake Indians at Fort Boise. While holding the confab, four of the Winnass band (which is the tribe by whom the massacre was committed) had the temerity to come into the council. They were known to the interpreter, who signified to the Major that they were in camp as spies. The Major did not intimate to any person his knowledge of their being there until the *wawa* was over, when he had them arrested. One of them attempted to escape, but was shot down. The Court proceeded with the trial of the others; they were found guilty of participating in the murders, and were sentenced to be hung over the graves of the murdered emigrants, a sentence which was carried into effect on the 12th of July.

OREGON AND RUSSIAN POSSESSIONS.—The Oregon papers contain further accounts of Indian depredations. Several who were supposed to be implicated in the murder of the emigrants near Fort Boise have been arrested and executed near that place.

It seems that several of the tribes in that vicinity have joined together for the purpose of exterminating the whites. At Forest Dale, up to August 11, eleven persons had been killed; others are missing. The Cheyennes and Sioux Indians have attacked and killed one hundred and fifty of three hundred perfons who attempted to cross the plains this season. The remainder of the party succeeded in reaching Salt Lake City, though in a starving condition. Brigham Young contributed freely to their wants.

On the 7th of July the Amphytrite, the Puque, and another English vessel, destroyed a Russian iron steamer at Ayon, in the Gulf of Saghalien.

CENTRAL AMERICA.—A mass meeting which was held at Greytown, on the 6th of September, resolved to establish a provisional government, consisting of a military and civil Governor in one person, and a council of five, to continue in power until the people may determine to establish a permanent government under a new constitution.—The following persons were elected officers of government.

Governor, H. L. Kinney; Secretary, W. S. Thafer; Captain of Port and Collector, J. R. Swift; Judicial Magistrate, S. T. Haly; Attorney, W. H. Young; Postmaster and Recorder of Deeds, F. Salter: Provost Marshal, S. H. Shock; Deputy Marshal, Thomas S. Codd; Surveyor, John Jackson; Constable, B. Wark; Members of Council, Dr. Thomas Cody, A. M. C. Wood, Benj. Mooney, Walter Southerland, and Samuel Shepherd, Sr.

Governor (Colonel) Kinney delivered an inaugural proclamation, in which he pledges himself to spare no effort to procure from our Government indemnity for the losses sustained by the burning of Greytown.

MOVEMENTS OF COL. WALKER—A BATTLE.—The Central American gives the following intelligence:

"We have just received intelligence from the interior, bringing us accounts of the late movements of Col. Walker. On Monday, the 3d, Col. Walker, with one hundred and fifty men, (only eight of whom were white), came from San Juan del Sud over to Virgin Bay, and took up his quarters.

"General Guadiola immediately came down from Rivas, and attacked him with four hundred men. The result was that the government party were defeated, with a loss of some fifty men, while Walker sustained only a loss of one white man and four natives. The government party is said to have been badly used up.

"A messenger, who left shortly after the battle at Virgin Bay, reports that Walker had returned to San Juan, and would probably attack Rivas in a few days."

Latest and Authentic from Norfolk and Poitsmouth.

The boat arrived this morning from Norfolk, bringing Drs. Briggs and Rizer, of Philadelphia; also, Messrs. Reside and Butler, apothecaries, of this city, and seven nurses—among them we have the names of Floyd, Butrick, Wilson, Kelly, and John Mills, the latter having in charge the baggage of Dr. Cole, of Philadelphia, and Singleton Mercer, Esq., both of whom died in Portsmouth. Dr. Briggs has been in Portsmouth thirty-three days, and Dr. Rizer forty, and both have had the fever, the latter only just able to ride, and is in the care of Dr. Briggs. They left in the 9 o'clock train for Philadelphia. Dr. Cole, of Philadelphia, and Dr. Hunter, of New York, both volunteers, died on Sunday—the former was ill only 24 hours, and was attended by Dr. Briggs. This makes 9 volunteer physicians who have died in Portsmouth, all of whom were from the north of that place.—Only 4 resident physicians have died. Dr. Thomas, of Cincinnati, was taken suddenly ill on Friday, but was convalescing, and strong hopes were had of his recovery. He is the only one now left in Portsmouth of the volunteers. Dr. Webster is nearly well, and will return probably in the next boat.

Up to yesterday at noon there were five deaths in Portsmouth; on Sunday 7, and on Saturday 13—so that the disease is greatly abating, but this is owing to the want of material. There are now 125 down, and among them are many of the Irish who have recently returned from the precincts, and most of the recent deaths are of this class. In Norfolk there is much greater abatement than in Portsmouth, the deaths being some five or six a day. A very few have resumed business; and all the volunteer physicians and nurses are getting ready to leave.

It is ascertained that there have been 2,000 deaths in Norfolk—among them were 10 resident and eleven volunteer physycians. In Portsmouth the deaths have reached about 950, as near as can be estimated.

We learn from the report of the Norfolk Board of Health, that the following deaths occurred on Monday morning: Mrs. W. B. Ferguson, Miss Margaret Kennedy, and Miss Catharine Redman, matron of orphan asylum. There were 4 deaths on Saturday, 7 on Sunday, and 3 new cases on Sunday. Forty-two nurses left for New Orleans on Sunday, and 7 doctors and 12 nurses left on Monday for Savannah and Charleston.

DEATH OF MRS. AND MISS TANEY.—We regret to learn the death and burial of the wife and youngest daughter of Chief Justice Taney. They died at Old Point Comfort, where they spent the summer. Mrs. Taney died of paralysis and the daughter of yellow fever. They were both buried in one grave, yesterday, at Old Point.

CAUGHT AND CAGED.—A colored fugitive from Louisville, Ky., who had there been arrested for negro stealing, or something of that kind, and who got off by a forfeiture of his bond, is now under arrest in this city, awaiting a demand on the part of the Executive of Kentucky, after which, by comity of States, he will be sent back from whence he came. *N. Why Females Suffer in Health.

THE MARRIED WOMAN'S Private Medical Companion,

BY DR. A. M. MAURICEAU,
PROFESSOR OF DISEASES OF WOMEN.
One Hundreth Edition (500,000) 18mo., pp. 250.

A standard work of established reputation, found classed in the catalogues of the great Trade Sales of New York, Philadelphia, and other cities, and sold by the principal booksellers in the United States.

Every woman can here discover, by comparing her own symptoms with those described, the nature, character, and cause of her complaint, and be spared much anxiety and suffering, as well as the unpleasantness of making known to, or making inquiry of, a physician in respect to the numberless ailments to which she is subject. The wife about becoming a mother has often need of instruction and advice in respect to her situation, which she will here find. This book tells her what is the matter, and tells her what to do for it, in simple but chaste words, and such as she can understand.

Those suffering from obstructions or irregularities peculiar to the female system, or from *prolapsus uteri* (falling of the womb,) or from *fluor albus*, will each find in its pages the means of prevention, amelioration, and relief.

Much distress of mind, as well as thousands pecuniarily, might be saved to every husband, if the simplest laws appertaining to the marriage state were better understood. That they are better understood is traceable to that natural and almost commendable sensitiveness that will rather suffer than consult or converse with even a medical man in respect to complaints peculiar to the female only.

In a copy of *"The Married Woman's Private Medical Companion,"* every female has a physician that knows and describes her every symptom, feeling, and ailment and which she can consult at all times without violence to her sensitiveness.

[Extract of a letter from a gentleman in Dayton, Ohio.]

DAYTON, May 1, 1847.

DR. A. M. MAURICEAU—*My Dear Sir:* My wife has been perceptibly sinking for some three years or more, in consequence of great anguish and suffering some months before and during confinement; every successive one more and more debilitated and prostrated her, putting her life in imminent danger, and which was on the last occasion despaired of. I supposed that this state of things was inevitable, and resigned myself to meet the worst. I heard your book highly spoken of, as containing some matters reaching my case. On its receipt and perusal I cannot express to you the relief it afforded my distressed mind, and the joy its pages imparted to my wife, on learning that the great discovery of M. M. Desomeaux provided a remedy. It opened a prospect to me which I little conceived was possible. But for this, ere another year would have passed over my head, in all human probability my wife would have been in her grave and my children left motherless.

To the Public.

LOUISVILLE, KY., Feb. 8th, 1855.

[illegible] SOLOMONS—Dear Sir: I called upon you at your [illegible]ce, on Fourth street, in December last, and told you that I had purchased several pair of Spectacles at different stores, but had never obtained any that did not cause great pain and fatigue to the eyes, but am happy to state that the pair I purchased of you suit beyond my expectations, by day and candle light. I have found my sight improve so much since I have used them, that I cannot sit down and read small print without them. Wishing you every sucess your great enterprise deserves, I remain, yours truly, S. HILLMAN.

LOUISVILLE, KY., Feb. 24, 1855.

MR. G. SOLOMONS—Dear Sir: Having satisfactorily tried a pair of Spectacles purchased of you, and finding them far superior to any I have ever used, in that they rest and strengthen the eye, whilst all others have pained, wearied, and weakened my sight, I cordially recommend them to the use of all who stand in need of them.

Respectfully yours, S. J. EVANS, On Broadway.

JEFFERSON CO., Dec. 2, 1854.

I have used Mr. SOLOMONS' Eye Glass for a very brief period, with decided advantage, and have no hesitation in stating that a defective vision of long standing has been relieved, and the organs seem to be acquiring vigor and tone. I therefore cheerfully bear testimony to their excellency and accuracy, as also to Mr. Solomons's skill as a practical Optician, and the wonderful facility with which he adapts his Glasses to the various peculiarities of vision. More Light on the Subject.

A BLUE AND WHITE Double Quick Work Sky Light, just introduced by ROESBERG, enables him to take Daguerreotypes in a few seconds and for the greatly reduced price of 50 cents and upwards. It is also one of the best lights ever known to produce correct likenesses, either of children or adults. The red hair and blue eyes have heretofore been difficult to take; but it is no longer any trouble to give them the real artistic disposition of light and shade. The new Sky Light operates as well in cloudy as in clear weather, and gives the likeness the true tone of life. The public will therefore look to their own interest by calling on Roesberg before going to any other gallery, as there you can buy cheaper, receive a better case, and a much truer likeness than at any other place in the city.

Just received, a splendid lot of handsome cases, such as Velvet, Papier Mache, Pearl, and other kinds too numerous to mention.

Persons having Daguerreotypes badly taken by other artists can have them retaken for 50 cents, and if not bettered no charge will be made, at the Mammoth Daguerrean Gallery, No. 531 Main street, between Second and Third. [je4] GEORGE F. ROESBERG.

☞JUST think of it, at BROWN'S GALLERY you may obtain a fine Daguerreotype of yourself for the trifling sum of One Dollar, inclosed in a neat case. Now, don't delay any longor, but take your families down and have their pictures taken, and you will not regret it. Sam is hard to beat. jy17

MEDICAL.

NEW PRINCIPLE! NEW REMEDY! NO POISON!

RHODES' Fever and Ague Cure,

Or Antidote to Malaria,

FOR THE PREVENTION AND CURE OF Fever and Ague, or Chill Fever; Dumb Ague, and other Intermittent and Remittent Fevers; also, of Bilious Fevers, accompanied by Typhoid Symptoms; Typhoid Fever, Yellow Fever, Ship and Jail Fever, General Debility, Night Sweats, and all other forms of disease,

WHICH HAVE A COMMON ORIGIN IN MALARIA OR MIASMA.

THESE DISEASES ARE COMMON to many localities of the United States; but wherever they prevail, North, South, East, or West, they all equally spring from the same miasmal cause. The great variety of symptoms and forms of disease, is owing principally to difference in age, sex, constitution, and habits of the sufferer; but as the cause is the same, they will all equally yield to a remedy that is competent to overcome or remove that cause.

By the laws of nature, every principle has its opposite, and for every disease, or cause of disease, there is a re-agent, or, in other words, a specific remedy. All Malaria, whether arising from Marshes, Stagnant Water, decomposition of animal and vegetable matter, or even newly cleared lands, is the same in character and effect; is a poison floating in the atmosphere, causing disease to all who breathe it. In accordance with those unalterable laws governing the unerring affinity subsisting between opposites, there is in the preparation before us, offered to the public,

THE NATURAL ANTIDOTE TO MALARIA,

Which neutralizes the poison whenever it comes in contact with it, even in the open air, and when taken internally completely purifies the system affected by it of its baneful influence, and thus restores and preserves health.

The remedy is believed to be entirely new, and unknown to any but the proprietor, who distinctly claims the following extraordinary results from its use:

It will instantly check the ague in persons who have suffered for any length of time, from ONE DAY TO TWENTY YEARS, and by continuing its use, according to the directions, a radical cure will be effected; the patient continuing free from the complaint for ever; unless subsequent exposure to malaria should make its use again necessary.

In its operation upon the poison in the system, it will immediately relieve all the distressing symptoms of bilious or ague diseases, and when the disease is cured, it will entirely prevent the accession of

GENERAL DEBILITY AND NIGHT SWEATS,

Which so often follow the administration of other medicines. The patient at once begins to recover appetite and strength, and continues to improve until restored to perfect health.

By its use, Fever and Ague may be banished from every family and class in the community; farmers, mechanics, and all laboring people may be using this article as a

PREVENTIVE,

And pursue their respective avocations in perfect safety from ague and bilious attacks during the sickly season, which is often to them the most valuable part of the year.

Since the introduction of the CURE in every part of the United States, its success has been so complete and unvarying as to have fully proved these assertions in favor of its extraordinary merit.

When these declarations were made, at the date of its introduction, they seemed incredible to many, even of the most candid minds, because all the resources of science had been taxed in vain to subdue ague or bilious diseases; and what was still worse for ague sufferers, all their remedies or treatment, whether scientific or empirical, have been limited to the use of poisonous or destructive drugs, such as Arsenic, Quinine, Mercury, Salicine, &c. The effects of these are sometimes worse than the disease they subdue; and when such remedies fail, or give only temporary relief, their poisonous effects are superadded to the poor sufferer's first complaint.

On this account ague sufferers should be particularly careful about using any secret Fever and Ague remedies, notwithstanding the makers of them uniformly assert they may be taken with perfect safety, even when it is notoriously well known that their potency depends sorely upon destructive poison.

Now as a proof that the remedy is not only valuable on account of its power to cure diseases, but that it is also

WORTHY OF PUBLIC CONFIDENCE,
BECAUSE OF ITS
SINGULAR AND ENTIRE HARMLESSNESS,

The following certificate, from one of the most celebrated chemists in the United States, has been obtained, and a copy of it is attached to every bottle:

NEW YORK, June 11, 1855.

"I have made a chemical examination of Rhodes' Fever and Ague Cure, or Antidote to Malaria, and have tested it for Arsenic, Mercury, Quinine, and Strychnine, but have not found a particle of either in it, nor have I found any substance in its composition that would prove injurious to the constitution.

"JAMES R. CHILTON, M. D., Chemist."

It is a stubborn fact, therefore, that this Remedy is destined not only to relieve the human family from malarious diseases, but to do an equally good work by preventing the taking of other medicines which do harm.

The entire absence of any baneful ingredient makes this Remedy, not more valuable as a Cure, than it is as a preventive.

No class of disease is so easily managed as the one under consideration, if the medicine be taken in advance. This is owing to the diseases being produced by one and the same cause, and therefore all, both residents and travelers, should protect themselves by the timely use of this preventive, and not wait for the poison already lurking in their veins to develope itself in a violent attack. Take the Cure as a preventive, and so destroy the poison before it does harm.

Full directions and advice as to Diet and Habits of life prepared by a distinguished Physician long resident in a Bilious climate now accompany each bottle.

It will often be found necessary to precede this medicine by a mild cathartic or antibilious purgative. The very best thing for general use is a moderate dose of Castor Oil, the object of which is to cleanse the stomach and free the biliary passages. Remember that where this is necessary, or there is costiveness, it MUST BE TAKEN, or the operation of the antidote will be seriously obstructed.

ONLY CAUTION.

In certain specified cases, pour the contents of one or more bottles of the Cure into shallow vessels (dining plates), and place them in sleeping rooms; for the vapor rising from the medicine, and also the air wafted across, or circulated over the dregs of it, after the liquid is evaporated, will counteract and destroy, to a degree commensurate with its exposure, the miasmata of poison contained in the apartment. This mode of exhibiting the Cure should likewise be resorted to when very young infants are exposed to malarious situations.

The bottles in which this medicine is put up have the words "RHODES' FEVER AND AGUE CURE" blown in the glass, and on the outside wrapper is the name of the medicine (the copyright of which is secured), and the signature of the proprietor. These precautions are adopted to prevent counterfeits and imitations.

THE RELIANCE FOR ITS SUCCESS IS ENTIRELY UPON ITS ACTUAL MERITS wherever introduced and used. These will be considered sufficient.

Prepared and sold by the proprietor,
JAMES A. RHODES, Providence, R. I.

Extract of a Letter from Professor Fletcher, who was cured while engaged at Brown University, Prov., R. I.

INDIANAPOLIS, IND., March 1, 1855.

JAMES A. RHODES, Esq.—Dear Sir:—Yours of 15th ult. has been received, and I am glad to hear that a medicine so efficacious is to be introduced into this AGUISH country. I have the greatest confidence in its success, and can reassure you of its happy effect upon me in entirely breaking up the chills and leaving me strong and healthy.

I like the statement on your wrappers that you will let the medicine stand on its own merits, and standing thus, I am most sanguine of its success.

I expect to travel over a large portion of our State this spring, and I shall have abundant opportunity to recommend it verbally. Wherever I go I shall take great pleasure in thus testifying to its merits, and every place I will instruct your agent to let me have a few bottles, I will carry them with me to distribute for your benefit.

In haste, I remain, truly yours,
MILES J. FLETCHER.

HAD THE AGUE FOR TWELVE YEARS!!!

PROVIDENCE, June 29, 1855.

Having been informed of the illness of a poor, but worthy woman, who has not been free from Fever and Ague a month at a time for the last twelve years, I supplied her gratuitously with Rhodes' Fever and Ague Cure. She took in all four bottles, which completely restored her to health and strength, and as four months has now elapsed, there is no reason to doubt the permanency of the cure.

I am alse aware of many other cases in which it has been used, and have never known it to fail.

C. A. P. MASON, Apothecary.

WAVELAND, IND., Sept. 2, 1855.

MR. J. A. RHODES:—Please express me four dozen of your Fever and Ague Cure—send it immediately, as I am nearly out. It has given satisfaction.
Yours truly, R. W. GAMBLE.

PINE RUN, MICH., July 21, 1855.

DR. J. A. RHODES.—Dear Sir:—Your Cure for the Fever and Ague has thus far performed wonders. It has not failed in one instance to perform a quick and permanent cure. Some who have been troubled with the distressing disease have been ENTIRELY CURED by using only ONE bottle of the CURE. Please send us immediately four dozen, as we have but three bottles remaining. Truly yours, LATHROP & McLEAN.

The following letter shows the great effect of "RHODES FEVER AND AGUE CURE," and the bad effects of poisonous medicines taken previously, which the lady will probably never get rid of:

SOUTH DEDHAM, Mass., August 25, 1855.

DEAR SIR:—You wished me to write as to the health of my patient, after taking the Fever and Ague medicine you sent, which I now take pleasure in doing.

The patient was my mother. She has lived in Allegheny county, N. Y., for five years, and last fall, for the first time, had the Fever and Ague, which she cured in a short time by the use of * * * * * Fever and Ague Pills; but last March she came here to live with me, and in May was taken again with it. She has taken the medicine which you sent—she took the last some four weeks ago—and she seems to be cured of the disease, and her health is quite good now, but her joints and bones seem to be sore, and pain her some.

The medicine I think is very good, and I could recommend it to Ague sufferers, and I would procure it before any other within my knowledge for that disease.
Yours truly, CHARLES B. KNOWLTON.

PROVIDENCE, Ill., Aug. 9, 1855.

DEAR SIR: * * * * I might as well mention here that every bottle that I have heard of being sold has given good satisfaction. The agents that I have left medicine with say that it ranks among the best of patent medicines, and that after its good qualities once become known there will be more of it sold than of any other article of medicine in the State.
Respectfully yours, JOSEPH SMITH.

PANTEGO, N. C., Aug. 27, 1855.

DR. JAMES A. RHODES—Dear Sir: I take pleasure in assuring you of the complete recovery of my daughter from Fever and Ague, of which she has suffered almost without intermission for over five years past, although I had tried various kinds of medicine and treatment.

At my request Mr. Reddick ordered from you two dozen, and I can say that it has not only cured my daughter, who took two bottles, but others who have used it. This part of the country is very swampy and sickly.

With this Mr. Reddick sends you the money for three dozen more. Respectfully yours,
JAMES GAYLORD.

LETTER FROM A POSTMASTER.

MAXWELL, Delaware co., O., Aug. 19, 1855.

MR. J. A. RHODES—Dear Sir: Your medicine has met with the most favorable success in this neighborhood. I have about five bottles left. I gave it to them at first "if no cure no pay," although I was not authorized by you to do so; but I took the responsibility on myself. But not a bottle has come back, and as I am almost out of the article, I wish you would forward me one gross of bottles if you see proper to do so, and I will be punctual in payment. I inclose fifteen dollars on the medicine I have received, for which please send me a receipt. Ship the Cure to me as soon as you can; there never has been as much Chills and Fever since I lived in the State as at present. Yours, &c.,
RICHARD MARTIN, P. M.

FEVER AND AGUE MEDICINE.

In another column of to-day's paper will be found an advertisement for "Rhodes' Fever and Ague Cure." We are not in the habit of puffing medicines, but desire to say, for the benefit of the afflicted, that Wm. N. Rowe, merchant, Sharpsburg, who has it for sale, informs us that he has sold several dozen bottles, and in every case it has effected a cure. This proves the medicine to be good, and we take pleasure in bringing it before the notice of the public.—*Odd Fellow, Boonsboro', Md., Sept. 4.*

RIVER AND WEATHER.

RIVER.—The river was still about at a stand last evening, with six feet scant in the canal by the mark, and four feet one inch in the pass on the falls.

☞Yesterday was another fine day.

PITTSBURG, October 4—P. M.

There are 5 feet 4 inches water in the channel and falling. Weather clear and pleasant.

NEW ORLEANS, Oct. 4—P. M.

Departed yesterday—8 hotwell.

☞The David White will most certainly leave for New Orleans on Saturday evening.

☞The R. L. Cobb came up yesterday from Nashville with a lot of iron for this port, and some 5,000 bushels of wheat for Cincinnati. She run aground in going up the Cumberland, but the river rose to her great relief.

☞Captain Barnard has christened his new Tennessee river packet, now finishing at the wharf, the "R. M. Patton No. 2." She is a fine boat, and provided with more conveniences than any other boat on the river.

☞The great Jacob Strader is the Cincinnati packet to-day at noon. Captain Summons commands her, and our friend Dunning is in the office.

☞The Southerner, fleet as an arrow, and as comfortable as one's own house, is the packet at noon today for St. Louis. If you wish to travel on a fine boat, take the Southerner.

☞The Rainbow, complete in all departments, well manned and officered, and as swift a boat as can be found, leaves this afternoon at 3 o'clock, for Evansville and Henderson.

☞The Mississippi was at a stand at St. Louis on Tuesday, and that was the dullest day of the season, there being but four arrivals at that port. Nothing new from the upper rivers.

☞Passengers leaving to-day on the Southerner will overtake the S. F. J. Trabue at Cairo.

[*From the Evening Edition.*]

PITTSBURG, October 4—M.

There are 5 feet 6 inches water in the channel and at a stand. The weather is clear and pleasant.

CINCINNATI, Oct. 4—M.

There are 8 feet water in the channel and rising slowly. The weather is pleasant.

☞Thanks to Mr. S. B. Moody, of the Southerner, for full river favors. The Southerner is the regular Friday packet for St. Louis.

Coffee Circular.

BALTIMORE, Sept. 29, 1855.

The activity noticed in our review of the coffee market, at the date of our last monthly circular, was soon after followed by an unusual degree of languor, which has continued to prevail uninterruptedly throughout the month, to an extent almost without precedent at this season of active jobbing business.

This apathy has been mainly produced by the expectation generally entertained by the trade, that on the receipt of the heavy supplies known to be on the way to this port, holders would have to make considerable concessions in order to effect sales—and it would appear from the absence of all demand from the interior, that the same feeling also prevails there.

The sales of the month show an amount of business much below our monthly average—the only prominent transactions being the purchase of some 4,000 bags to go to a Southern market. It is worthy of remark that an unusual proportion of the cargoes coming here in transient vessels turns out to be damaged by sea water or by mould:

The free supplies expected here are now just coming to hand, there being three cargoes, comprising 13,000 bags, now afloat with unbroken bulk, and others reported below. These arrivals however do not seem so far likely to produce the effect anticipated by buyers, as the advices both from Europe and from Brazil are considered by holders so encourging to their interest, that they express the determination to store their cargoes rather than submit to any further decline than has already taken place, which is about ¼ to ⅜ cts ℔ lb. The quality of the new crop so far received is much better than the first receipts usually are, giving promise that the quality of the average crop will be better than that of last year.

The market closes without animation. We quote prime 11¾c, fair to good 11¼ to 11½c, common to medium 10½ to 11c. No Laguyra or Java in market.

TELEGRAPH MARKETS.

NEW YORK, Oct. 4—P. M.

The Flour Market—For common and medium grades of flour the market has improved fully 1s, with a brisk export demand for England and France; home trade is buying with more freedom, and we also notice a good demand for forward delivery; at the close of the change it was difficult to pick up lots in order at inside rates; the receipts from the West are increasing, but this apparently has no effect except perhaps to stimulate the demand; the total sales of to-day is 31,000 bbls at $7 81@8 12 for common to straight extra State, $7 75@8 25 for mixed to fancy and low grades extra Western, and $9@10 54 for extra Genessee; the market is closing buoyant with more buyers than sellers; included in sales are 14,000 bbls for forward delivery, bought by shippers at $7 37@7 50 for State for Nov, $7 75 for Ohio, and $8 for extra Indiana for Nov. and Dec; the market is firmer for Canadian flour, with a better demand; sales of 800 bbls at $8@9 for superfine to best extra; it is rather difficult to buy parcels at inside figures; Southern better, with more inquiry; sales of 1,600 bbls at $8 25@8 75 for mixed to choice, and $8 81@10 for fancy and extra. Cornmeal quiet; 100 bbls Jersey sold at $4 62. Rye flour lower; sales of 200 bbls at $5 50@6 75 for fine and superfine.—There is much better export demand for wheat; prices have advanced from 2@3c, and nearly all parcels offered in shipping condition were taken for the export business, for export is only restricted by the supply; at the close of change there was scarcely a sound parcel in the market unsold; over 130,000 bushels changed hands, including 12,300 red Southern. Rye has advanced 2 cents with large demand; sales of 63,000 bushels at $1 16@1 20, including 25,000 to arrive all this month. Barley scarce and much wanted. For corn there is a fair demand for home consumption; market firm without important change; sales of 50,000 bu Western mixed at 86@87, and 87½@88c for handsome Western yellow. Oats scarcely so firm; sales at 41@46c for State and Western, the latter rather scarce. Pork without important change and demand fair for forward delivery; sales of 1,600 bbls at $22 37@22 50 for new mess, and $21@21 25 for prime. Beef—Rather more doing, but market is without important change; sales of 400 bbls. Lard—Less active in demand, but prices are without important change; sales of 300 bbls at 11¾@12c. Butter in good request at 15@18c for Ohio, and 20@22c for State.—Cheese—Selling slowly at 9@10c. Whisky in better demand at improved prices; sales of 600 bbls Ohio and prison at 41@41½c.

Stock market quiet. Illinois Central Railroad 93. Sterling unchanged. Cotton market unsettled; sales of 1,000 bales.

NEW ORLEANS, Oct. 4—P. M.

Flour heavy at $7 30. Whisky—Sales at 34½c. Sides at 12¾c.

NEW OOLEANS, Oct. 3—P. M.

Cotton declined ⅛c to-day; sales for the last 2 days have been 8,000 bales; middlings are now quoted at 9@9⅛c.

PHILADELPHIA, Oct. 3—P. M.

Cotton continues in limited request. Flour market quiet, but prices are firmer; private accounts by the Pacific being more favorable than the advices received by telegraph; export demand is limited, and only a few hundred bbls standard brands have been disposed of at $8, which is the uniform asking rate. Wheat—There is more inquiry, and receipts being light, the decline has been recovered; sales of 2,000 bush ordinary and prime Southern and Pennsylvania red at $1 70@1 85, white at $1 90@1 97, afloat and in store. Corn is in good demand; 5,000 bushels sold at 92c. Whisky held firmly in bbls at 41c, and in hhds 40@41c.
